If you have played the *Pathfinder Roleplaying Game* (or *Munchkin Pathfinder*, especially with its expansions), you are well aware how murderously adorable Golarion's goblins are. Is it little surprise that their spacefaring descendants would be just as adorable and just as murderous?

Goblins can stack on each other, just like Swarm and Undead monsters. We made very sure to include some crossover monsters so you can have the full experience of monster after monster piling into your fight. You're welcome.
